Work Experience

Southeastern Computer Consultants Inc. (SCCI) | Software Engineer March 2020 – Current

- Developed, tested, deployed, maintained, and updated military training software (web and mobile) used by hundreds of personnel every year
- Created a custom, single-page framework and an intuitive component library using JavaScript and jQuery which cut app development time by 50%
 - Wrote documentation detailing how to use the framework and components
- Developed keyword and acronym search features which substantially improved navigation for users
- Onboarded and trained two new hires on app development process and coding framework

Cut Developments | Full Stack Developer August 2019 – March 2020

- Developed and designed UIs for small businesses
- QA for projects; improved website performances by an average of 10% and freed up server space by 12% by optimizing processes and assets
- Facilitated communication between clients and remote development team

Entrepreneurial Experience

Berry Development | Full Stack Developer August 2019 – May 2020

- Developed and hosted full stack applications for small businesses in the greater Travis County area
- Revamped SEO and UI for a popular local restaurant's website which increased web traffic by 240%
- Quickly learned how to link API endpoints to calls and database to deliver a full stack app on a tight deadline

Applications

Windmill Ranch Company Website | https://wesleyberry.github.io/Windmill_Ranch_Static/

- Client-commissioned website for Windmill Ranch, a bed and breakfast in Wimberley, TX. Uses JavaScript, Node, custom built APIs, database, and authentication/authorization for the admin to manage the backend

Education

Texas State University: Bachelor of Science May 2021
Trilogy at University of Texas: Coding Boot Camp May 2019

- 12-week intensive program focused on improving programming skills
- Led as project manager for all three group projects
